

# COMPREHENSIVE SUPPORT IN TRANSIT OPERATIONS

DISCOVER TOBBUND'S SERVICES

**TOBBUND**  
BRIDGING BORDERS

## Comprehensive Support in Transit Operations: Discover Tobbund's Services

Tobbund Logistics Investment Inc. is a technology-driven organization aiming to digitize international transportation and customs operations, making logistics processes more secure, faster and more efficient. Our primary objective is to offer smart and innovative solutions to the challenges faced in cross-border transportation.

### Our core services include:

- **T1-T2-TR-ENS Transit Operations:**

Tobbund provides integrated and digital transit solutions under the T1, T2 and TR regimes through a common guarantee system for logistics companies. By leveraging the NCTS infrastructure in both Türkiye and Europe, we ensure the rapid and secure issuance of transit declarations, electronic tracking and smooth closure processes at the destination customs.

Thanks to the common guarantee model, companies can perform transit operations without presenting individual guarantee letters. With Tobbund's technical support, process consultancy and coordination with customs authorities, operations become faster, costs are reduced and operational security is enhanced.

- **ICS2-ENS (Entry Summary Declaration):**

The Entry Summary Declaration (ENS), submitted digitally before goods enter the EU territory, plays a critical role in ensuring security checks and risk assessment.

Tobbund ensures that your ICS2-ENS declarations are prepared in full compliance with current regulations and with accurate data. We submit the declarations to the authorized authorities within the required timeframes, facilitating smooth customs clearance for your shipments without delays.

# T1 - T2 - TR

- **Tobbund Transit Facilitation Center – Authorized Consignor Service:**

International road carriers can save time and avoid inner-city traffic by completing their transit procedures directly at our Transit Facilitation Center, located near Kapıkule, Hamzabeyli and İpsala border gates.

Thanks to Tobbund's Authorized Consignor status, transit declarations, registration and sealing procedures are completed within approximately one hour, enabling swift departure to the border with priority crossing rights.

Our facility operates 24/7, 365 days a year.

- **Border Pass Card (in cooperation with Petrol Ofisi A.Ş.):**

Developed in partnership with Petrol Ofisi the Tobbund Border Pass Card allows for duty-free fuel purchases at POAŞ stations near the Kapıkule and İpsala border gates.

This card eliminates the need for carrying cash and provides a fast and secure way to purchase fuel on credit from participating stations.

- **TIR Carnet Services:**

As of April 4, 2023, we have started distributing TIR Carnets. They are available through our branches in Tobbund Kapıkule, Edirne Transit Facilitation Center and Mersin.

- **Declaration Preparation Services:**

With our expert team, we offer uninterrupted T1, T2 and TR declaration preparation services 24/7. This ensures a fast, reliable and smooth transit operation at every stage of your process.

- **Customs Follow-up Support (Unterminated Declarations):**

For declarations opened under Tobbund's guarantee, we provide full support in case of non-closure.

Our expert team closely monitors, reports and coordinates every step required to close unterminated declarations, helping our partners mitigate potential penalties and ensure compliance.
